PROFILE

Full time developer with a passion to frontend, and math graduate. Specializing in web application development, always bearing in mind good project architecture, standards and business value of what I create. Like every professional developer, I never stop learning. Thanks to my wide variety of skills I'm well suited to drive projects forward as a small team leader, as well as handle them all alone.

WORK EXPERIENCE

FRONTEND DEVELOPER
Level: **MID**
Company: Cosmogroup
Mode: Fully remote
Stack: Vue 3 + Typescript
Date: 06/2023 - Present

FRONTEND DEVELOPER
Level: **JUNIOR**
Company: Cosmogroup
Mode: Poznań/remote
Stack: Vue 2/Javascript
Date: 09/2021 - 06/2023

ACCOMPLISHED PROJECTS

COMPANY MANAGEMENT PANEL (Cosmogroup) 03/2023 - present
- Purpose of the panel is to provide an ability to create work schedules, record time cards online and send requests for holidays which reduces the company time spent on paper work extensively.
- Offers the ability to manage employees remotely.
- Has extensive administrator and user logic.
- Written with correct structure and programming patterns in mind via **Vue 3 + Typescript + Vite**
- A one-man frontend project. I was responsible for all visuals including design, test and debugging.

RETURNS PANEL (Cosmogroup) 08/2023 - 10/2023
- Purpose of the panel is to provide an ability for shop customers to return their products by following certain steps on the panel.
- Stack: **Vue 3 + Typescript + Vite**.
- I was a leader of small 2-person frontend team.

SHOP MANAGEMENT PANEL (Cosmogroup) 01/2022 - 09/2022
- The panel aims to facilitate 500+ employees.
- Collects all kinds of statistics on many various things from company online shops (neonail, mylaq), including shop traffic, products sold, bestsellers, daily/monthly/yearly revenue, domain traffic, etc. Helps with data analysis.
- Able to manage contests hosted by company for customers.
- Stack: **Vue 2 + Volar.**
- Cooperated with the 2-person backend team to obtain possibly the most effecitve appliaciton.
